

**INTERNATIONAL ELECTROTECHNICAL COMMISSION****Technical Committee No. 3 Documentation and graphical symbols****Listing Task II on IEC 60617-6 (1996)****Introduction**

This listing is a follow-up of the documents 3A/436/NP and 3A/452/RVN containing proposals (NP) and comments (RVN) of the National Committees on amendment to IEC 60617-6:1996 (Task II). The listing includes changes proposed by WG 1 as agreed at the meetings of this working group in spring 1998 in Frankfurt. It is intended to insert them directly in the IEC 60617 database as change requests and continue with the database procedure according to 3/539B/INF.

Before starting a database procedure, this document is sent to the WG 1 for checking.

**General rules**

- The rules for the size and orientation of symbols can be found in IEC 61082-1, clause 4.3.3 and 4.3.4
- Examples of symbols shall have no numbers and will be placed in the column "Description".
- Deleted symbol numbers shall not be more used.

Category: c = correction, e = editorial change, t = technical change

Symbol No	Category	Change proposed by WG 1
Section 2.1 A00135	e	Replace "IEC Publication 71: Power transformers" by IEC 60076-1" (Already corrected.)
06-01-05 S00800	c	Delete one "m" in upper case (Seems to have been corrected. There is no longer any upper case m. If the intent is to say that the upper m should be taken away, this proposal would be in contradiction to how the previous symbols in this group are constructed, compare S00799.)
06-03-01/02/03 S00815, 816, 817	t	To be deleted and a reference to the symbol 04-03-01 shall be made instead. (C00072, withdrawal)
06-04-01 S00819	c c	- Correct reference to read "02-02-03 and 02-02-04" (Already corrected.) - Replace "non-rotary" by "static" (C00071: Change of A00291)
06-04-04 S00822	t	Delete symbol as it is no more in use (C00072: withdrawal)
06-05-01 to 05 S00823-827	c	Correct symbols for DC as in 02-02-03 (Already corrected.)
06-07-02 to 05 S00832-835	c	Correct symbols for DC as in 02-02-03 (Already corrected.)
06-08-05 S00840	c	Delete flash from the symbol drawing and correct description to read: "Linear induction motor, three-phase" (C00071)
Chapter III	e	- Delete items 1 and 2 (Withdraw A00128 (C00072), item 2 is already deleted, it is implicitly contained in the reference to

		S00583.) - In item 4 replace "IEC 375" by "IE 60375" (Already corrected.)
06-10-01 S00852, 853	e	Delete "Single-phase" in the description (C00071)
06-10-01-03 S00854, 855	e	Change "tapping" to "tap" (C00071)
06-10-09 S00860, 861	e	Change "tappings" to "taps" deleting brackets" (C00071)
06-13-01B S00879	e	Four bowls shall be drawn as in the symbol 06-10-06 (C00072)
06-13-06 S00884	e	Change "tapping" to "tap" (C00071)
06-14-01 S00892	e	Delete symbol and make reference to the symbol 02-17-06 (C00073, withdrawal)
06-14-02 to 06 S00893-897	e	Correct symbols for DC as in 02-02-03 (Already corrected.)
06-14-06 S00897	e	Put flashes on the upper side of the square symbol (C00071)
06-14-07 S01412	t	Add new symbol for chopping device: (a new symbol drawing is to be inserted here) (C00074)
06-15-16-01 S00899	e t	- Delete "general symbol" (C00071) - Change "rotary generator" to "static generator" (I suppose this refers to the heading of the clause, since the reference is indeed to a rotary generator, and the proposal contradicts that of 06-04-01 above. Change keyword. (C00071))
